KEYNOTE SPEAKER

MS. MELYSSA TRNAVKIS, PE

**Director, Airport Design & Construction
Management, Salt Lake City
Department of Airports**

Melyssa Trnavkis, PE, has more than 25 years of progressive airport planning and engineering experience. In June of 2022, she was named Director of Airport Design & Construction Management for the Salt Lake City Department of Airports. In this role, she is responsible for a professional staff and team of consultants engaged in the design and construction of facilities and infrastructure associated with the Airport's capital project program. Her responsibilities include projects at Salt Lake City Airport (SLC), South Valley Regional (U42), and Tooele Valley Airport (TVY). Previously, she was Director of Engineering for the Calgary Airport Authority where she led a team of nine in designing various airfield capital and pavement maintenance projects.
